Paresh Chauhan

Android Developer | **Kotlin, Java**, Live Streaming & SDK Integration

Surat, Gujarat, India +91 90812 00621 +91 63527 08697 developerparesh.dev@gmail.com

PROFESSIONAL SUMMARY

Android Developer experienced in architecting native Android solutions using **Kotlin, Java**, and MVVM architecture. Proven expertise across live video streaming (ExoPlayer), utility and system launcher apps, multi-threaded downloaders, SMS parsing, UPI sound box notification engines, and ad monetization pipelines (**Google AdMob**, AppLovin MAX). Experienced with government app solutions, startup ecosystems, and client freelance delivery.

PROFESSIONAL EXPERIENCE

Android Developer — Jul 2026 – Sep 2026

Znatrix Infotech · Surat, India

- Engineered custom Android Launcher bundled with background social media video downloader functionality using **Kotlin, Java**, WorkManager, and DownloadManager.
- Developed an Astrology & Horoscope application featuring transit feeds, horoscope calculations, and push messaging via **Firebase tools**.
- Monetized apps using **Google AdMob** and AppLovin MAX with high eCPM mediation cascades.

Android Developer — Jan 2026 – Apr 2026

Zyer Tech · Surat, India

- Architected high-concurrency Live TV, Live Football, and Live Cricket streaming apps.
- Integrated ExoPlayer / Media3 with HLS adaptive bitrate streaming, low-latency buffering, and real-time live score updates via WebSockets and REST APIs.
- Configured **Google AdMob** mediation waterfalls and non-intrusive stream overlay banners.

Freelance Android Developer / Consultant — Jan 2024 – Present

Independent Contracts & Client Projects · Bangalore / Remote

- **Client (Bangalore Firm):** Built short video stories platform with smooth reel/story caching, audio playback, and an instant SMS banking alert app.
- **UPI Soundbox Engine:** Engineered real-time payment audio announcement tool listening to payment notifications and broadcasting multi-language voice confirmations.
- **Technozer (1.5 Months):** Developed secure Android module for UK Government public sector utility and document submission app.
- **VB Information (1.5 Months):** Developed SNS community and fundraising mobile app for charity campaigns, donors, and payment integration.

Android Developer Intern — Jun 2024 – Nov 2024

Pain Lab (PainLab OS) · Remote / Surat

- Contributed to custom PainLab OS Android ROM/system-level customizations, launcher layouts, and low-level system utility services using **Kotlin, Java**.
- Optimized background service lifecycles, memory footprint, and custom framework APIs.

Android Developer — May 2022 – Dec 2023

AndroTech Solutions · Surat, India

- Built, published, and maintained native Android utility and lifestyle applications using **Kotlin, Java**, and XML layouts.
- Integrated REST APIs, Room local caching, and **Firebase tools** (Remote Config, Crashlytics, Analytics).
- Maintained 99.5%+ crash-free user sessions and optimized APK sizes for Play Store compliance.

CORE SKILLS

Android Development
Kotlin, Java, XML, ViewBinding, Custom OS / System Services

Architecture & Concurrency
MVVM, Clean Architecture, Coroutines, Flow, WorkManager, Foreground Services

Streaming & Multimedia
ExoPlayer / Media3, HLS Streaming, Video Stories / Reels, Text-to-Speech (TTS) Engine

Hardware & System Integration
UPI Sound Box Audio Alerts, SMS Broadcast Receivers, NotificationListenerService, OkHttp, DownloadManager

Monetization & Tools
Google AdMob, AppLovin MAX, Meta Ads, **Firebase tools**, Android Studio, Git, Play Console

SELECTED PROJECTS

UPI Sound Box Audio Voice App
Real-time transaction alert broadcaster triggering immediate voice feedback on incoming payment SMS and push notifications.

Live Sports & TV Streaming Apps
Low-latency HLS video streaming platform with live cricket/football scoreboards and channel routing.

Short Video Stories & Social App
Fast-scrolling media reel and story player with pre-caching and background compression.

UK Government Utility App
Compliance-focused mobile portal built for citizen service records, KYC, and document verification.

Charity & Donation SNS App
Social community platform connecting non-profits, volunteers, and payment gateways for verified charity campaigns.

TECHNICAL HIGHLIGHTS

UPI Soundbox | Live TV Streaming | Short Video Engine | PainLab OS | UK Gov App | SMS & Broadcast | Ad Mediation | Offline-First

EDUCATION

BCA (Bachelor of Computer Applications)

Gujarat Technological University (GTU) · Graduated 2022

Computer applications, software engineering, and database systems.
